

Product Update

Effective 1 July 2020, the estimated Indirect Cost Ratios (ICRs) for the ING Living Super Balanced & Growth options have changed.

We would also like to inform you that in our 1 December 2019 Product Update, we incorrectly communicated an estimated ICR reduction for the International Fixed Interest (Hedged) Option from 0.10% to 0.0% (nil). The correct estimated ICR for this option at the time should have been disclosed as 0.053%.
